THE fact that the exports to the United States from Sheffield, England, during 1895 were \$750,000 larger than these of 1894 is worth noting as an example of the way in which a bemocratic Tariff policy does not benefit the manufacturers and laborers of the United States.

Kentucky District opposes the proposed issue of bonds, and thinks Congress should be compelled to shoulder the re-sponsibility for improving the existing condition of affairs. Well, if GROVER will go a-fishing and keep his finger out of the pie Congress will settle the whole matter very speedily and very effectually.

the capture of the markets of the world by American farmers, we felt sure that comfort could be gleaned from Secretary MORTON's report. We gather the follow

ing facts: During the 1895 fiscal year there was decrease in our exports of cattle of 39,256 head as compared with 1894. On the other hand we imported 63,716 head of cattle from Mexico. But the wonderful stimulus given to our wool growing in-dustry is shown in our exports of 350,808 head of sheep, an increase of 300 per cent, ever 1894, when only 55,809 were

Concerning the foreign markets for American meat products, Mr. Mortos says that "prices for bacon averaged cor siderably lower during the year 1805 than in the year 1894." Though there was "a very considerable advance in the price of on" in the British market in the summer, "United States bacon did not par-ticipate to any appreciable extent in the general advance." During seven months
of the year we sold 15,680,000 pounds more bacon, but received \$1,000,000 less money for it. It is with bacon as with other of our farm products, the markets of the world are willing to take then when they need them, not when we want to sell them; and at their price, not our Of our live stock trade in the British market Mr. MORTON says

FOR DULL TRADE

John Wanamaker Says:

"I do lie heavlest advertising in duil time."
"Then it is when people look usest keenly for lorganis and are analous to know what things cust, and where they can save money. I advertise particular things, they prices, and take as much pais with my announcement as foo with my stock. One big dinner wont keep up the reputation of the big house—but steady, good cooking does it. I never permit interest in my announcements to lag, and never mise an issue in my chosen publications. Advertising has mane my store one of the largest in the country."
